"A Cab with finesse and structure"

2005 Cabernet Sauvignon

....Soft and lush at the beginning, with good black cherry and currant fruit and medium tannins this wine has nice character and complexity. A long lingering finish on the back of the palate, "this is one of the best Cabs I've had all year," said my drinking companion. This is not a big Cab, with huge tannins but a Cab. with finesse and structure. With less than 1,500 cases of the 05 produced this bottle is a steal at approximately \$45. If you can find it make sure you grab a bottle or 2 and while at it if you can find their Chardonnay or Riesling one should stock up on those too.
